How University Employees Can Support Small Business

Impact of Small Business

The U.S. Small Business Administration (SBA), Office of Advocacy, compiles annual and quarterly data on the vital impact of small business on our communities and nation. The SBA partially funds the U.S. Census Bureau to produce small business data through the following programs, Statistics of U.S. Businesses (SUSB), Business Dynamics Statistics (BDS), and Nonemployer Statistics (NES). The SBA also uses data from the U.S. Bureau of Labor Statistics program, Business Employment Dynamics (BED). Visit the following sites for current data.

Defining Small Business

The Tennessee Governor’s Office of Diversity Business Enterprise (GoDBE) defines and certifies five categories of small and diversity businesses. To be eligible for certification, businesses in all five categories must be for-profit, continuing, independent businesses performing a commercially useful function.

Small Business Enterprises - SBEs

Less than 100 employees
OR
Total gross receipts of no more than ten million dollars averaged over three years

Businesses at least 51% owned and controlled by persons in these categories:

Disabled-owned Business Enterprises – DSBEs

Minority-owned Business Enterprises – MBEs

(African American, Asian American, Hispanic American, Native American)

Service-Disabled Veteran-owned Business Enterprises - SDVBES

Women-owned Business Enterprises - WBEs

Why does UT adhere to GoDBE’s definition?

GoDBE measures diversity spend for all state agencies. GoDBE only measures spend with *GoDBE-certified* businesses.

Can UT Department Needs, UT Policy, and Support of Small Business Co-Exist?

*I want to support local small and diversity businesses. May I buy **any** goods or services from them?*

No. If goods and services are available through UT Service Centers and existing agreements, you must purchase through those resources. However, you may still have the opportunity to support small businesses.

- Several of UT’s Services Centers do business with local, small businesses.
- UT has existing agreements with small and diversity businesses.

I need goods or services that are not available through existing UT resources. May I buy from DBEs?

Yes! Please seek DBEs for your small purchases or purchasing requisitions when possible.

My department needs goods/services procured through a formal bid. Will Procurement Services seek bids from DBEs?

Yes! As required by the Tennessee Small Business and Minority-owned Business Purchasing and Contracting Act (TCA 12-3-801), the university will actively solicit bids from DBEs.

Opportunity vs. Award: Measuring Your Needs and Expectations against Small Business Delivery

What goods and services do I need?		Can a DBE provide what I need?
What are my expectations?		Can a DBE meet my expectations?
<p>DBEs can provide excellent service and individual assistance. Gallup polls show Americans trust small business. Departments are encouraged to use DBEs, but DBEs must meet our expectations if they wish to earn our business.</p>
